

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

Indiana's Telephone Privacy law has improved my time at home.

Indiana's law has been effective in my home, as I used to receive 3-5 calls per day/evening and I now receive maybe 1 or 2 per quarter and from well known agencies.

As a Deputy Sheriff in my county, I have also noticed a dramatic decrease in reported fraud by phone sales, ESPECIALLY on the elderly. I have personally not received even one complaint of phone fraud in the past year and looking through our records, can only see one or possibly two for this past year, compaired to 2-3 per month before Indiana's privacy law.

I honestly can't even think of a single person that has EVER stated that they liked getting un-welcome calls, especially in the evening while trying to spend time with their family.

Do YOU trust anyone trying to sale YOU something over the phone ????
